

## Katie's Private Facts

Katie is a highly known Hollywood star, but unbeknownst to the public she has fallen on tough times. Since her marriage to top actor Tom Cruise, her movies have flopped and she has become less appealing as an icon. Now, Katie's personal finances are depleted, so she needs Suri's money.

When Tom and Katie married, they immediately wanted to quash rumors that Tom was impotent, as it was negatively affecting his reputation and career. To cover up Tom's impotence, Tom and Katie decided to artificially inseminate Katie with founder of Scientology, L. Ron Hubbard's semen. As a result, L. Ron is Suri's actual biological father. Katie does not think Suri is privy to this information and wants to continue to keep this a secret from everyone. Even though Tom was abducted by aliens and is presumed dead, his reputation is still very important in both the Hollywood and Scientology communities. Although L. Ron is deceased, Katie pays L. Ron's family \$100,000 per year to keep her little secret. If Suri is emancipated from Katie, the secret will be out since L. Ron's family would no longer keep silent about their biological connection to Suri. Do not let this secret out at any cost! Katie needs about \$500,000 in order to maintain the secret for a few years while she works on new movie projects. Currently Katie is in a poor financial state, so her only hope of obtaining the money she needs is through maintaining control of Suri's assets.

Katie also does not want to lose her relationship with her daughter and will do anything to make sure that Suri does not cut ties with Katie. Katie is even willing to exploit Suri and her drug & alcohol addiction in order to prevent Suri from becoming emancipated. If Suri's drug & alcohol addiction surface, Mel Gibson will want nothing to do with Suri, because of his pure born again Christian beliefs.

Katie needs to maintain some control over Suri's money, because she will be bankrupt without it. She understands that she has some money management problems, and acknowledges that she needs to work on this. Katie does not like SP, "born again" Christianity, or Suri doing "R" rated movies, but she cannot lose custody of Suri and is willing to negotiate.
