- Make sure to select login using 'CWSL' (see the graphic to the right).

**Note: We have found the following factors are most commonly responsible for login problems.**

Once logged in, your session will load, giving you a view similar to the graphic on the right:

## Notes:

You can add personal notes at any point in the presentation, and they will be saved and viewable upon future logins. The 'notes' tab shows any notes you have made, or currently have access to. Clicking on one of these notes will seek playback to the related timestamp.

- Clicking on search lets us search for any available text data for this session. In this example, we searched for "request" and found 3 results.
- Clicking the "Sort" drop box will let us sort by Relevance or Time, while the "Show" drop box lets us sort by "All" "Notes" "Slides" or "Captions" to refine our search.

## Bookmarks

The bookmark button (the star to the right of the 'info' tab, lets users earmark specific points in recordings to view later.
