

MARITIME LAW SOCIETY (Maritime)

The mission of the Maritime Law Society (Maritime) is to provide California Western School of Law students with a better understanding of the maritime industry as well as the laws and regulations that govern it.

The Maritime Law Society aims to expose this specialized area of law to students through practical experience including tours of ports, vessels and other industry site locations, as well as expert speakers. Additionally, we will facilitate connecting law students with other maritime attorneys in the Southern California area.
